How to support your child in maths

Homework help

Before homework is set:

- Encourage your child to speak like a mathematician – use the vocabulary in the maths booklets – we practise this regularly in class.
- Regular independent revision – use the booklets and/or Dr Frost.

During homework:

- Use the resources available:
 - Example questions in your child's book
 - Videos on Dr Frost Maths

What is Dr Frost Maths?

- Short, concise, informative videos.
- Practice questions.
- Past exam questions.
- Immediate feedback.
- Levels 1 – 4. We would expect students in Year 7 to be working at Level 1, possibly 2.

Using Dr Frost Maths

- Write down username and password.
- Weekly homework set on Dr Frost on a Monday, due the following Monday.
- Regular independent revision.
- Students will be logging onto Dr Frost week beginning Monday 2nd March to see how it works. All log in information will be in their planner.
